

Centaur HTP® 5" Flexible Rail

30
YEAR
Limited
Warranty

- Strongest and Safest Rail on the Market
- The Patented Horse-Friendly Fence
- Practically Maintenance-Free

Centaur® HTP® 5" Rail is the premiere horse fence. Centaur HTP® has the traditional look of board fence without the high maintenance costs. Created from a blend of virgin polymers, Centaur HTP® is a superior flexible fence that is safer than wood, wire or vinyl.

Centaur HTP® 5" rail withstands impact without risking injury to your horse. Our flexible design means no caught legs or entanglement injuries.

Centaur installs faster than wood and rigid PVC and will never splinter, rust, rot, crack, or fade! Nominal maintenance costs for accessory and post replacements.

The molded Centaur high-tensile polymer bracket with steel reinforced bar is virtually indestructible.

The exclusive design allows the rail to move through the brackets dispersing impact. Stability bars prevent "buckling" due to upward or downward pressure on the rail extending rail life.

Exclusive Centaur brackets are the ONLY brackets created for flexible polymer fencing

P/N 993118
0508

Centaur® HTP®

- No Splinters • No Painting
- No Rust • No Peeling
- No Cribbing • No Problem

SPECIFICATIONS

Total Rail Width	5"
Roll Length	330' 660'
Steel Wire	12.5-Gauge
Min. Break Strength	4,050 lbs
Weight Per Roll	95 lbs 185 lbs
Colors	White <input type="radio"/> Black <input type="radio"/> Brown <input type="radio"/>

Includes 2-piece Centaur HTP® brackets. Please specify post spacings for quantity.

Centaur HTP® 5" Rail is manufactured in Muscle Shoals, Alabama

Centaur HTP® 5" Flexible Rail

Centaur® is the inventor of High Tensile Polymer (HTP), a material that is a blend of impact modifiers, UV stabilizers, and anti-fungicides. Formulated for strength, durability and appearance, HTP® fencing material is color fast, stain-resistant and mildew resistant.

Centaur withstands temperature conditions from -40°F to 200°F without becoming brittle or experiencing any kind of breakdown.

Centaur Barrel Tensioner

EASY TO TENSION

Tensioners mount unobtrusively on end or line post, preserving the traditional appearance of the fence.

Constructed of heavy-duty steel, Centaur barrel tensioners are tough and durable. One-way single barrel tensioners for short runs and two-way double barrel tensioners for long runs make installation faster and easier.

Patent # 6,648,305 and Patent # 6,848,678

Centaur HTP® 5" Rail

- Mechanically bonded fence - Ask us how this differs from others!
- Each rail is installed in a continuous length allowing impact to be absorbed by the entire length of the fence
- Made in the USA
- Fence life is 30+ years with a 30-year limited warranty
- Centaur HTP® 5" rail is easily combined with other Centaur fencing to fit your budget or design needs
