

Hot Rail®

Electric HTP® 5" Rail

OLD WAY
Dangerous hot wire and wood

- Safest Electric Fence on the Market
- Patented One-Piece HTP® Electric Rail - Eliminates separate wire
- Cuts Installation Time in Half!

Hot Rail® Electric HTP® 5" Rail is an innovative fence that combines Centaur® HTP® technology with the security of electric fencing while eliminating the need for a dangerous separate hot wire.

Hot Rail® is the safest electric fence available! By combining electric properties within the rail, Hot Rail® protects your horse without the need for a separate hot wire that can slice a horse like a knife.

Hot Rail® Electric HTP® 5" rail withstands impact without risking injury to your horse. HTP® technology combines the pliability of polymer with the strength of high tensile, creating a rail that is safer, stronger and more flexible, helping reduce horse injuries on your farm.

No Splinters • No Painting
No Rust • No Peeling
No Cribbing • No Problem

The molded Hot Rail® high-tensile polymer bracket with steel reinforced bar is virtually indestructible.

The exclusive design allows the rail to move through the brackets dispersing impact. Stability bars prevent "buckling", due to upward or downward pressure on the rail, extending rail life.

Exclusive Centaur® brackets are the ONLY brackets created for flexible polymer fencing

SPECIFICATIONS		ELECTRIC
Rail	5" - 3 Wire	
Roll Length	330'	
	660'	
Steel Wire	12.5-Gauge	
Min. Break Strength	4,050 lbs	
Weight Per Roll	93 lbs	
	182 lbs	
Colors	White ○	
	Black ●	
	Brown ●	
Brackets	2-Piece	

Please specify post spacings for quantity.

Centaur® is the inventor of **High Tensile Polymer (HTP)**, a material that is a blend of impact modifiers, UV stabilizers, and anti-fungicides. Formulated for strength, durability and appearance, HTP® fencing material is stain and mildew resistant. With the addition of electric properties, Centaur® has created **Hot Rail®**, the strongest and safest electric fence on the market.

Used as a bottom rail, **Hot Rail®** can help keep out predators. The electric shock acts as a buffer to your animals helping protect them from predators.

Hot Rail® Electric HTP® Rail

- Withstands expansion rates due to temperature changes
- Each rail is installed in a continuous length allowing impact to be absorbed by the entire length of the fence
- Hot Rail® 5" Rail is manufactured in Muscle Shoals, Alabama  MADE IN THE USA
- Fence life is 30+ years with a 30-year limited warranty
- Hot Rail® Electric HTP® 5" rail is easily combined with other Centaur rail or strand fencing to fit your budget or design needs

The Insulator Pad is used to insulate the barrel tensioners when using **Hot Rail® Electric HTP®**.

Each pad is 6" x 4' and may be cut to size during installation.

RECOMMENDED SURE-FIT® ACCESSORIES

	Wood Line Post	Synthetic Line Post
Barrel Tensioner One-Way	✓	✓
Barrel Tensioner Two-Way	✓	✓
Insulator Pad	✓	✓
Under-Gate Cable	✓	✓
Line Tap Connector	✓	✓
Brace Plate or Brace Pin	✓	✓
3.5" Nails or 2.5" Screws	✓	✓
12.5-Gauge Wire Link	✓	✓
Splice Cover	✓	✓
Spinning Jenny	✓	✓
